CHIEMEZIE UCHENWOKE

Fullstack Developer

Lagos, Nigeria │ **Email:** uchenwoke.chiemezie@gmail.com │ **Phone:** +234-706-896-9903
Linkedin: https://www.linkedin.com/in/chiemezieuche/ │ **Portfolio:** https://chiemezie-uche.vercel.app

PROFESSIONAL SUMMARY

Fullstack Developer with 2+ years experience building scalable web applications using React, TypeScript, Node.js, and MongoDB. Strong background in implementing secure authentication, RESTFul APIs, and mentoring junior developers. Seeking a growth-driven engineering team.

WORK EXPERIENCE

Turing Tech LLC - Fullstack Developer & Instructor
Remote │ March, 2024 - Present

- Delivered hands-on training in HTML, CSS, JavaScript, React, Node.js, Express, and Git/GitHub, guiding beginners to build real-world applications.
- Built and deployed production-ready fullstack features, including authentication systems, dashboards, and database integrations.
- Implemented JWT-based authentication, protected routes, and CRUD APIs using Node.js and Express.
- Contributed to curriculum restructuring, improving course flow, clarity, and learning outcomes.
- Mentored learners through debugging, code reviews, and project development, improving confidence and problem-solving skills.

PROJECTS

SpendWise – Fullstack Expense Tracking App
Technologies: React, Tailwind CSS, Node.js, Express.js, MongoDB, JWT, Bcrypt

- Developed and integrated a fullstack application for tracking income and expenses.
- Implemented secure authentication using JWT and Bcrypt.
- Enabled users to view transactions, calculate totals, and see their balance.

Taskflow – Responsive SAAS landing page
Technologies: React, Tailwind CSS

- Designed and developed a modern SaaS landing page with a clean, conversion-focused layout.
- Implemented reusable React components and scalable layout patterns.
- Optimized UI for mobile, tablet, and desktop devices.

EDUCATION

B.ENG Polymer & Textile Engineering (Nnamdi Azikiwe University, 2014).
